

Careless Whispers

I was the man in the grassy knoll

I laid those Sasquatch tracks

I was the one who gave

Elvis the heart attack

(CHORUS)

Careless whispers

Everywhere you go

Careless whispers

Now you know

Careless whispers

In the street

I've got guilty feet

Did you see the car I keyed

Man, I smashed that window

I burned the doghouse down

I threw the tomato

(CHORUS)

I buried the man down by the river

I cheated on the score

I plagiarized this song

I broke the knob off the door

(CHORUS)
