

I Come From North Carolina

From the home of Michael Jordan and Jessie Helms

This is the state that really jams

Rockin' the rhyme like a cat and mouse

We come from trailer parks to the Biltmore House

We make our own moonshine and homemade wine

My pickup truck and Carolina on my mind

The highway patrol rollin' down 95

From South of the Border to the V.A. state line

Basketball and NASCAR rule the day

With Richard Petty, Dean Smith and Coach K

For football and hockey the Panthers and Hurricanes

We kicked the Hornets out to New Orleans

Hurricane Hugo with the high speed winds

Roller coaster thunder road at Carowinds

The final four tobacco road

Duke and the Tarheels are gonna explode

The Wright Brothers flying a plane through the air

Textile mills making underwear

Andy, Barney and Aunt B

Mayberry was the place to see

Gomer, Goober and Floyd cutting hair

Ernest T brick through the air

In my mind I'm going to Carolina
