

## The Throne

Close the door and light the light

So you can see

Feel the blood flow through your veins

What will be, will be

(Chorus)

Sitting on the throne

As the world goes by

Paper rolled u[on the wall

Why, o-why can't I

Could it be that no one sees

The tears streaming down our eyes

Souls pacing to and fro

But they won't realize

(Chorus)

Watch the heavens and watch the earth

Before the cloud rains down

Cover your ears and cover your mouth

Or you just might drown

(Chorus)

Spray the flowers into the air

Before it's time to go

Light a match for liberty

So everyone will know

(Chorus)
